SPRING CATARRH.

Changeable Weather Causes the Disease.

Breathe Hyomei and Cure Catarrh.

The changeable weather of spring, with its warm days and cold nights, is responsible for a great increase in the number of cases of catarrh. It is now that Hyomei, the only guaranteed treatment for catarrh that cures without stomach dosing, should be used in every home.

For more than a century physicians have been sending persons suffering from catarrh to Egypt, Colorado or Australia, where the pure, healing air would cure the disease. For one person who could take this trip, thousands have been compelled to stay at home and continue their daily toil. To those sufferers who could not change their climatic conditions, we offer Hyomei, a method by which pure air impregnated with Nature's own remedies for the cure of catarrh, can be inhaled by every sufferer in his or her home. Breathed through the neat pocket inhaler that comes with every outfit, its healing, volatile, antiseptic fragrance reaches the lungs and air passages as no stomach dosing possibly can do. It gives immediate relief and makes lasting cures.

The complete outfit, consisting of the inhaler, medicine dropper, and bottle of Hyomei, costs only one dollar, and extra bottles of Hyomei, if needed, can be procured for fifty cents.

Proof that the Hyomei treatment will do all that is claimed for it is found in the guarantee under which Rickert & Wells sell it, an agreement to pay back the price, if the purchaser can say that Hyomei has not given satisfaction.
